

WHAT IS CLAIMED IS:

1. A case for a handheld device having a connector for charging said handheld device, said case comprising:
  - a case panel, said case panel having a first panel and a second panel, and an intermediate panel therebetween, wherein said case panel is foldable so as to form an open-sided enclosure for receiving said handheld device;
  - a device bracket having a first end for receiving said handheld device and a second end that is attached to a bracket strap that is movably attached to said case panel; and
  - a closure means attached to said first panel and said second panel.
2. The case of claim 1 further comprising a removable cardholder that is affixed to said case panel.
3. The case of claim 2, wherein said case panel has an inner side and wherein said removable memory cardholder is affixed to said inner side.
4. The case of claim 3, wherein said removable memory cardholder includes a frame for slidably holding a removable memory card.
5. The case of claim 4, wherein said frame includes two removable memory card slots for holding two removable memory cards.
